Hi,

Hope this email finds you well. The thinning crew has completed most of the plots and 50ft buffer. They were not able to finish all of the plots in Waldo N and have one whole plot and a portion of the group opening left. The plots in Camp 6 and Waldo S are complete. Their new contract starts in July, so they will be back to finish the plots then.

The work dates are as follows:

Camp 6: 5/1 – 5/3

Waldo S: 5/4 – 5/8

Waldo N: 5/9 – 5/10

If you have any questions or need any additional information please let me know.
